Publications

Brandenburger E, Gressler M, Leonhardt R, Lackner G, Habel A, Hertweck C, Brock M, Hoffmeister D (2017) A highly conserved basidiomycete peptide synthetase produces a trimeric hydroxamate siderophore. *Appl Environ Microbiol* 83(21), e01478.

Hsieh SH, Brunke S, Brock M (2017) Encapsulation of antifungals in micelles protects *Candida albicans* during gall-bladder infection. *Front Microbiol* 8, 117.

Skrahina V, Brock M, Hube B, Brunke S (2017) *Candida albicans* Hap43 domains are required under iron starvation but not excess. *Front Microbiol* 8, 2388.

Geib E, Gressler M, Viediernikova I, Hillmann F, Jacobsen ID, Nietzsche S, Hertweck C, Brock M (2016) A non-canonical melanin biosynthesis pathway protects *Aspergillus terreus* conidia from environmental stress. *Cell Chem Biol* 23(5), 587-597.

Naranjo-Ortíz MA, Brock M, Brunke S, Hube B, Marcet-Houben M, Gabaldón T (2016) Widespread inter- and intra-Ddmain horizontal gene transfer of d-amino acid metabolism enzymes in eukaryotes. *Front Microbiol* 7, 2001.

Brock M (2015) Bringing light into the dark site of infection. *Cytometry Part A* [Epub ahead of print] (Review)

Gressler M, Hortschansky P, Geib E, Brock M (2015) A new high-performance heterologous fungal expression system based on regulatory elements from the *Aspergillus terreus* terrein gene cluster. *Front Microbiol* 6, 184.

Gressler M, Meyer F, Heine D, Hortschansky P, Hertweck C, Brock M (2015) Phytotoxin production in Aspergillus terreus is regulated by independent environmental signals. *eLife* 4, e07861.

Brunke S, Seider K, Richter ME, Bremer-Streck S, Ramachandra S, Kiehntopf M, Brock M, Hube B (2014) Histidine degradation via an aminotransferase increases the nutritional flexibility of *Candida glabrata*. *Eukaryot Cell* 13(6), 758-765.

Jacobsen ID, Lüttich A, Kurzai O, Hube B, Brock M (2014) *In vivo* imaging of disseminated murine *Candida albicans* infection reveals unexpected host sites of fungal persistence during antifungal therapy. *J Antimicrob Chemother* 69(10), 2785-2796.

Otzen C, Bardl B, Jacobsen ID, Nett M, Brock M (2014) *Candida albicans* utilizes a modified β-oxidation pathway for the degradation of toxic propionyl-CoA. *J Biol Chem* 289(12), 8151-8169.

Papon N, Courdavault V, Lanoue A, Clastre M, Brock M (2014) Illuminating Fungal Infections with Bioluminescence *PLOS Pathog.* 10(7), e1004179. (Review)

Ramachandra S, Linde J, Brock M, Guthke R, Hube B, Brunke S (2014) Regulatory networks controlling nitrogen sensing and uptake in *Candida albicans*. *PLOS One* 9(3), e92734.

Zaehle C, Gressler M, Shelest E, Geib E, Hertweck C, Brock M (2014) Terrein Biosynthesis in Aspergillus terreus and Its Impact on Phytotoxicity. *Chem Biol* 21(6), 719-731.

Fazius F, Zaehle C, Brock M (2013) Lysine biosynthesis in microbes: relevance as drug target and prospects for β-lactam antibiotics production. *Appl Microbiol Biotechnol* 97(9), 3763-3772.

Hennicke F, Grumbt M, Lermann U, Ueberschaar N, Palige K, Böttcher B, Jacobsen ID, Staib C, Morschhäuser J, Monod M, Hube B, Hertweck C, Staib P (2013) Factors supporting cysteine tolerance and sulfite production in *Candida albicans*. *Eukaryot Cell* 12(4), 604-613.

Otzen C, Müller S, Jacobsen ID, Brock M (2013) Phylogenetic and phenotypic characterisation of the 3-ketoacyl-CoA thiolase gene family from the opportunistic human pathogenic fungus *Candida albicans*. *FEMS Yeast Res* 13(6), 553-564.

Citiulo F, Jacobsen ID, Miramón P, Schild L, Brunke S, Zipfel PF, Brock M, Hube B, Wilson D (2012) *Candida albicans* scavenges host zinc via Pra1 during endothelial invasion. *PLOS Pathog* 8(6), e1002777.

Slesiona S, Gressler M, Mihlan M, Zaehle C, Schaller M, Barz D, Hube B, Jacobsen ID, Brock M (2012) Persistence versus escape: *Aspergillus terreus* and *Aspergillus fumigatus* employ different strategies during interactions with macrophages. *PLOS One* 7(2), e31223-e31223.

Slesiona S, Ibrahim-Granet O, Olias P, Brock M, Jacobsen ID (2012) Murine infection models for *Aspergillus terreus* pulmonary aspergillosis reveal long-term persistence of conidia and liver degeneration. *J Infect Dis* 205(8), 1268-1277.

Brock M (2011) Weiterentwicklung des Hühnerei-Infektionsmodells und neue Biolumineszenz-Detektionssysteme liefern genauere Aussagen bei Pilzinfektionen und antifungalen Therapien *SIEMENS Forum Aktuell* (4), 11-11.

Gressler M, Zaehle C, Scherlach K, Hertweck C, Brock M (2011) Multifactorial induction of an orphan PKS-NRPS gene cluster in *Aspergillus terreus*. *Chem Biol* 18(2), 198-209.

Müller S, Fleck CB, Wilson D, Hummert C, Hube B, Brock M (2011) Gene acquisition, duplication and metabolic specification: the evolution of fungal methylisocitrate lyases. *Environ Microbiol* 13(6), 1534-1548.

Olias P, Gruber AD, Hafez HM, Lierz M, Slesiona S, Brock M, Jacobsen ID (2011) Molecular epidemiology and virulence assessment of *Aspergillus fumigatus* isolates from white stork chicks and their environment. *Vet Microbiol* 148(2-4), 348-355.

Rezola A, de Figueiredo LF, Brock M, Pey J, Podhorski A, Wittmann C, Schuster S, Bockmayr A, Planes FJ (2011) Exploring metabolic pathways in genome-scale networks via generating flux modes. *Bioinformatics* 27(4), 534-540.

Brunke S, Seider K, Almeida RS, Heyken A, Fleck CB, Brock M, Barz D, Rupp S, Hube B (2010) *Candida glabrata* tryptophan-based pigment production via the Ehrlich pathway. *Mol Microbiol* 76(1), 25-47.

Jacobsen ID, Grosse K, Slesiona S, Hube B, Berndt A, Brock M (2010) Embryonated eggs as an alternative infection model to investigate *Aspergillus fumigatus* virulence. *Infect Immun* 78(7), 2995-3006.

Schöbel F, Jacobsen ID, Brock M (2010) Evaluation of lysine biosynthesis as an antifungal drug target: biochemical characterization of *Aspergillus fumigatus* homocitrate synthase and virulence

studies. *Eukaryot Cell* 9(6), 878-893.

Domin N, Wilson D, Brock M (2009) Methylcitrate cycle activation during adaptation of Fusarium solani and *Fusarium verticillioides* to propionyl-CoA-generating carbon sources. *Microbiology* 155(Pt 12), 3903-3912.

Ibrahim-Granet O, Dubourdeau M, Latgé JP, Ave P, Huerre M, Brakhage AA, Brock M (2008) Methylcitrate synthase from *Aspergillus fumigatus* is essential for manifestation of invasive aspergillosis. *Cell Microbiol* 10(1), 134-148.

Behnsen J, Narang P, Hasenberg M, Gunzer F, Bilitewski U, Klippel N, Rohde M, Brock M, Brakhage AA, Gunzer M (2007) Environmental dimensionality controls the interaction of phagocytes with the pathogenic fungi *Aspergillus fumigatus* and *Candida albicans*. *PLOS Pathog* 3(2), e13.

Schöbel F, Ibrahim-Granet O, Avé P, Latgé JP, Brakhage AA, Brock M (2007) *Aspergillus fumigatus* does not require fatty acid metabolism via isocitrate lyase for development of invasive aspergillosis. *Infect Immun* 75(3), 1237-1244.

Ebel F, Schwienbacher M, Beyer J, Heesemann J, Brakhage AA, Brock M (2006) Analysis of the regulation, expression, and localisation of the isocitrate lyase from *Aspergillus fumigatus*, a potential target for antifungal drug development. *Fungal Genet Biol* 43(7), 476-489.

Sugareva V, Härtl A, Brock M, Hübner K, Rohde M, Heinekamp T, Brakhage AA (2006) Characterisation of the laccase-encoding gene abr2 of the dihydroxynaphthalene-like melanin gene cluster of *Aspergillus fumigatus*. *Arch Microbiol* 186(5), 345-355.
