

# Welcome Sven and congrats to your first paper :-)

03/08/2021

we are happy that [Sven](#) joins us again after his Master thesis in the Bode lab! And in his first week, our manuscript lead by Elena and Soohyun and co-authored by Felix and Sven on the "[Targeted Isolation of Saalfelduracin B-D from \*Amycolatopsis saalfeldensis\* Using LC-MS/MS-Based Molecular Networking](#)" was accepted. What a great start!
