

# Radiation protection

## **Dr. Florian Kloß**

### **Radiation protection officer**

Phone: +49 3641 532-1356 Email: [florian.kloss@leibniz-hki.de](mailto:florian.kloss@leibniz-hki.de)

[More](#)

The radiation protection officer and his deputy are your contact persons for all questions regarding the handling of open and enclosed radioactive substances and sources. They provide advice for planning and executing experiments with radionuclides, including use of the PET/CT scanner. Furthermore, the radiation protection officers can order radionuclides for you and dispose them correctly. The advice comprises all issues concerning the implementation of the radiation protection act.
