

Keishi Ishida

Biomolecular Chemistry · Postdoc +49 3641 532-1053 keishi.ishida@leibniz-hki.de

Publications

Herisse M, Ishida K, Staiger-Creed J, Judd L, Williams SJ, Howden BP, Stinear TP, Dahse HM, Voigt K, Hertweck C, Pidot SJ (2023) Discovery and biosynthesis of the cytotoxic polyene terpenomycin in human pathogenic *Nocardia*. *ACS Chem Biol* 18(8), 1872-1879.

Details

PubMed OPEN ACCESS

Trottmann F, Fiedler J, Ishida K, Ishida-Ito M, Little RF, Hertweck C (2023) Bacterial pathogen channels medium-sized fatty acids into malleicyprol biosynthesis. *ACS Chem Biol* 18(7), 1557-1563.

Details

Bredy F, Ishida K, Hertweck C (2022) A type III polyketide synthase specific for sporulating negativicutes is responsible for alkylpyrone biosynthesis. *ChemBioChem* 23(21), e202200431.

Details

Kim HJ, Ishida K, Hertweck C (2022) Thiotemplated biosynthesis of bacterial polyyne fatty acids by a designated desaturase triad. *ChemBioChem* 23(21), e202200430.

Details

Kim HJ, Ishida K, Ishida-Ito M, Hertweck C (2022) Sequential allylic alcohol formation by a multifunctional cytochrome P450 monooxygenase with rare redox partners. *Angew Chem Int Ed* 61(26), e202203264.

Details

Krumbholz J, Ishida K, Baunach M, Teikari JE, Rose MM, Sasso S, Hertweck C, Dittmann E (2022) Deciphering chemical mediators regulating specialized metabolism in a symbiotic cyanobacterium. *Angew Chem Int Ed* 61(26), e202204545.

Details

Trottmann F, Ishida K, Ishida-Ito M, Kries H, Groll M, Hertweck C (2022) Pathogenic bacteria remodel central metabolic enzyme to build a cyclopropanol warhead. *Nat Chem* 14(8), 884-890.

Details

PAPER

Ishida K, Shabuer G, Schieferdecker S, Pidot SJ, Stinear TP, Knuepfer U, Cyrulies M, Hertweck C (2020) Oak-associated negativicute equipped with ancestral aromatic polyketide synthase produces antimycobacterial dendrubins. *Chem Eur J* 26(58), 13147-13151.

Details

PubMed OPEN ACCESS PAPER

Neuwirth T, Letzel AC, Tank C, Ishida K, Cyrulies M, Schmölz L, Lorkowski S, Hertweck C (2020) Induced production, synthesis and immunomodulatory action of clostrisulfone, a diarylsulfone from *Clostridium acetobutylicum. Chemistry* 26(68), 15855-15858.

Details

PubMed OPEN ACCESS PAPER

Niehs SP, Kumpfmüller J, Dose B, Little RF, Ishida K, Florez LV, Kaltenpoth M, Hertweck C (2020) Insect-associated bacteria assemble the antifungal butenolide gladiofungin by non-canonical polyketide chain termination. *Angew Chem Int Ed* 59(51), 23122-23126.
